

Forum İstanbul

With a total construction area of 495.000 square meters in Bayrampaşa, Istanbul, Forum Istanbul is not only the biggest shopping center of Turkey, but also the biggest shopping center of Europe with a rentable area of 176.000 square meters, and 292 national and international brands.

In addition to its rich category and store mix, Forum Istanbul hosts Istanbul Sea Life Aquarium with Europe's biggest shark family and the first theme park Jurassic Land, and also led the way by incorporating Turkey's first Legoland Discovery Center last year in July.

Features mall architecture, planning

The iconic structures, impressive dome, vast alleys of Forum Istanbul have all been designed to offer a rich experience for visitors. Many components influenced by the local architecture can be found at Forum Istanbul. The colours used reflect the shades of the sea and the hues of spices, with references to Istanbul. Components such as domes, courtyards, oriels are all indicators of Turkish architecture.

There are permanent works of art at Forum Istanbul, as in all Forum Malls operated by Multi Development Turkey. The massive iron gate by Turkish sculptor Hanefi Yeter, named Gate to the World opens a gate to the world of shopping as well. The work called “Energy” by the Russian artist Daria Bokareva, produced for the 1st International Sculptures Symposium, is also part of the

landscaping in Forum Istanbul. Various lighting components within the mall blend function and aesthetics with their designs.
